Github: https://github.com/ArnavAnand3103 Mobile: +91 7739288348

SKILLS

Languages: Python, C, C++, TypeScript, JavaScript, Java
Web Technologies: HTML, CSS, React.js, Next.js, Node.js
Databases: MongoDB, DBMS, DSA
AI/ML: LangChain, ChromaDB, HuggingFace Transformers, RAG Pipelines, Groq API, OpenAI API
Tools/Platforms: GitHub, VS Code
Soft Skills: Adaptability, Problem-Solving, Teamwork

PROJECTS

ChatApp– AI-Powered Real-Time Messaging Platform | GitHub April 2026

- Developed a full-stack real-time messaging platform using React, Node.js, Express.js, MongoDB, and Socket.IO with private and group chats, online/last-seen presence, typing indicators, message status, media sharing, and a responsive WhatsApp-inspired UI.
- Integrated AI-powered features using Groq API, including intelligent chat, AI image generation, chat-based RAG, document RAG, and semantic search for context-aware responses and document-based question answering.
- Implemented End-to-End Encryption (E2EE) for private conversations using TweetNaCl public/private key cryptography, securely storing public keys in MongoDB while keeping private keys on the user's device and encrypting messages before transmission.
- Implemented backup and restore functionality supporting cloud backups, chat export/import, media backup, settings backup, and encrypted backup architecture for reliable data recovery across devices.

  Tech Stack: React.js, Node.js, Express.js, MongoDB, Socket.IO, Cloud Storage, JWT, AES Encryption, REST APIs

DataWhisperer– Full-Stack AI Data Analysis Platform| GitHub March 2026

- Built a web application that lets users upload spreadsheets (CSV, Excel) and query their data in plain English.
- Integrated LangChain with Python to automatically generate code, compute results, and render charts based on natural-language questions.
- Integrated LangChain with Python to automatically generate code, compute results, and render charts based on natural-language questions.
- Built a full-stack dashboard with secure login (including Google Sign-In), automated email verification, and persistent chat history.

  Tech Stack: React.js, Python, FastAPI, LangChain, Pandas, NumPy, Matplotlib, MongoDB, Node.js, Express.js, Google OAuth, JWT, REST APIs, Docker/Sandboxing, SMTP/Email Verification

TRAINING

Android Development | Lovely Professional University | Certificate Jul 2026

- Completed a skill development training in Android application development, focusing on building and deploying mobile applications using Android development tools and frameworks.
- Gained hands-on experience in Android UI development, activity and lifecycle management, user input handling, navigation, and integrating application components to build functional mobile applications.

CERTIFICATES

Database Management System Part – 1 | Infosys Springboard | Certificate July 2026

EDUCATION

Lovely Professional University Phagwara, Punjab
B.Tech in Computer Science and Engineering: CGPA: 8.11 2024 - present

Holy Kids International School Chapra, Bihar
Intermediate, Percentage: 88 April 2022 – March 2023

Chapra Central School Chapra ,Bihar
Matriculation, Percentage: 94.4 April 2020 – March 2021
